April 2020

Hi everyone,

Welcome back to a brand new term!

Firstly, we understand that for all of us these are unsettling and challenging times. Longley Park Sixth Form will continue to put the education, wellbeing and successful completion of qualifications for all of you as its priority. We also understand that you are probably concerned about how this may affect their progression to the next level.

The government and examination boards are putting in place guidelines for all schools and colleges as to how final grades will be awarded. Please do not worry about this. The guidelines set out a very fair process and the college will be working hard to make sure no one is disadvantaged. The guidance is also very clear that grades can not be discussed with students, so please do not ask!

Before Easter your teachers began to organise your learning electronically, this will now continue. Your teachers will have provided all the details you need to continue your learning remotely and have been busy organising your programme for the remainder of the Academic Year. If you are having any issues please contact your teacher with a brief email and ensure you copy your Academic Tutor into your communications. If you are progressing to University in September and need advice on UCAS please contact your Academic tutor by email.

It is vitally important to engage with all learning in order to ensure smooth progression to the next stage of your education. In order to be in the best position for when we do reopen you should ensure you do the following:

- Do all work set to the best of your ability.
- Meet all deadlines on time
- Act on teacher feedback.
- Create a routine and organise your time well.
- Communicate with your teacher if you need clarification. Keep emails brief, to the point and polite!
- Check CEDAR and update your Academic Tutor of any change to your and parent/carers contact details.

If there are any issues that prevent you from completing work, it is important that you let your teacher and Academic tutor know so we can support you.

Remember we are all here for you. Keeping in contact with your Teachers, Academic Tutor and support staff will help you maintain a sense of normality in these unusual times. Above all don't worry!

We really look forward to us being back together at the Sixth Form very soon.

Take care, keep in contact and be safe.
