## Debate winners!

**Student debate taking place in the House of Commons**

"I've always taken interest in law and when the opportunity came when I could study law, it was like a dream come true. Since starting the course, I have gained a plethora of skills which include problem solving and thronging outside the box. The subject has opened up many opportunities such as mock trials, work experience and Court visits also trips to London. I always look forward to the lessons as Matt makes them enjoyable and fun, with studying Law, it shows how hard and dedicated you are to the subject, it all pays off."

*-Kate, Currently studying at SHU.*
